### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art teaches crosslinked polymers for ophthalmic lenses with saponified vinyl acetate monomers as one of the comonomers and the other difunctional monomers. The specific use of diethylene glycol divinyl ether as the comonomer is not taught nor are the properties of the claimed lens either taught or rendered prima facie obvious by the closest prior art as cited. Applicant's claims are, therefore, both novel and unobvious over the closest prior art as cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
